Very, very fun game. Beautiful graphics. Plays very well. Works well from 0 to 4 players co-op. Great times.. Best bang for your buck when it comes to AMS's DLCs by far. The cars are remarkably superb to drive, continuing Reiza's upward trend regarding the quality of their vehicles that started with the 2017 F1 cars and Brazilian stock cars.. Last year during the summer sale I decided to give this trilogy a try. I thought just the pure idea of a text based super hero game was clever enough to earn my money. So I bought it and instantly fell in love with the series. It even inspired me to write my own super hero story with my own original characters. I will admit a game like this isn't for everyone, but all 3 are worth the money.. i can be a 10/10. Needs DLC's or expand the library... I'd pay more if you released a game that had a DLC for each individual Genre. The selection is ok but really only had like 3 major hits.. Simple, Enjoyable, strategy focused game with great replay value.

---

Incredibly emotional and wonderful experience with a massive amount of replayability. This is a must-have for any Choice of Games' fans.. Just finished this game and I really liked it. With my playtime it says 3,4 hours but on the second puzzle I had some help from the dev because it was really difficult and spend 1 hour alone there. This is fixed and has a more easier approach now. So 3-4 hours would be an average playtime.

The puzzles were great and not too hard (after the updates). I felt satisfied solving them and looking forward to let family and friends solve it. I would say you can compare this game a bit with "A Chair In A Room". Where ACIAR has a bit more playtime Phantasma has the better puzzles. Both games are great in their own rights.

Phantasma has its own psychological feeling and even at the end you scratching your head about what was going on. It's not hard figuring out but it keeps you thinking.

Also this game uses teleportation or locomotion so it should be comfortable for everyone.

Overall I recommend this game solely for its puzzles.

7/10. Brilliant and fun game! Classic point and click with great humor, weird story, just the right kind of madness and entertaining puzzles to solve. I find it strange that this game hasn't gotten more notice. I feel I stumbled upon a hidden gem and it made this rainy cold Saturday pretty perfect.

Some of the translations are a bit off, but it doesn't bother me. I recommend this to all that love point and click, quirky humor and solving nutty puzzles.. Really good, and really well designed card battle hybrid game. If you like the Spire game, and the Steam World games, you'll love this.. Finally The second Touhou game on Steam KEEP UP GOOD WORK ZUN!. It's not even a game...if you want to download it fine but you are wasting your time. It's ok I guess. \$60 I still regret to this day
